

Children's Specialty Group

Job Title: Director, CSG Operations

Required Education: Master's degree in healthcare administration, business, public health, or related field

Experience: Minimum of three years working in a large multi-specialty physician group practice, academic medical center or health system practice plans, or similar healthcare setting

Key Skills and Attributes: Must be an ambitious, innovative, and determined professional who takes ownership of the practice operational processes, as well as assigned projects and initiatives, and strives for maximum efficiency, measurable outcomes, and continuous practice and process improvement. Seeking a rising star with strong skills in leadership, communication, collaboration, presentation, negotiation, mediation, problem-solving, strategy, team-building, analytics, finance, revenue cycle, medical practice operations, and practice information systems. Preferred knowledge in pediatrics, graduate medical education, population health, marketing/public relations, physician recruitment, patient satisfaction, value-based reimbursement models, and integrated health systems.
