The webinar is scheduled for 60 minutes.

ADDITIONAL INFORMATION:

Michael Propst, MBA

Salary Survey Director, Association of Administrators in Academic Pediatrics; Associate Chair & Director of Finance & Administration, Department of Pediatrics, Center for Academic Medicine, Stanford University

Mike has a BA in Film from UC Santa Cruz and an MBA from the Haas School of Business at UC Berkeley. He has been in the Department of Pediatrics at Stanford University since 2004, mostly in clinical finance roles, and is currently the Associate Chair & Director of Finance and Administration.

Roundtable Analytics is an online platform designed for providing analytics assistance to the healthcare industry. The company seeks to create and apply cutting-edge predictive and inferential methods to solve today's biggest healthcare-related questions. Harnessing the power of multiple data sources in healthcare requires perspectives from mathematics, statistics, computer science, and operations research and truly innovative solutions will result from combining the power of these fields with knowledge from subject-matter experts.
